

THE DEADLY PICNIC

An Exercise in Deductive Reasoning

Objective

You will use deductive reasoning to decide who committed the murder.

Background Information

Centerville police discovered the body of a 36-year-old white male (later identified as Gaven Brooks) in an open field of daisies about five miles outside of town. Mr. Brooks's body was discovered at 10:02 pm Friday night, October 11. He was found lying face up on a yellow, queen-size sheet. According to autopsy reports, one fatal gunshot to the back of the head ended Mr. Brooks's life. Scientists estimate that death occurred at about 7:45 pm.

As investigators scanned the crime scene, they made the following notes:

- Paper plates filled with partially eaten fried chicken, potato salad, and chocolate cake were located near Mr. Brooks's body.
- An open bottle of red wine and two partially-filled glasses of wine were found next to the yellow sheet.
- One of the wine glasses had a smudge of red lipstick on the rim.
- A recently smoked cigarette butt was found near the sheet.
- Footprints from the road to the field were those of a male, size 10, and a female, size 5. The only footprints from the field back to the road were those of a female, size 5.
- Car tracks of the same wheel base and tread pattern as Mr. Brooks's automobile were found at the road. The car was not found at the scene.
- Later that evening Mr. Brooks's car was found abandoned in an empty parking lot in downtown Centerville.

Investigators believe that a female friend of Mr. Brooks was responsible for his demise. After questioning family and friends, it was discovered that the deceased had frequent social outings with six women who live in or near Centerville. The women's names are Rita, Lauren, Gail, Janice, Elaine, and Peggy.
